and 1/8" to 2 3/8". - Référence : JLBM100

CHUCK FOR HOLLOW PUNCHES DIAM 2 TO 100 MM AND 1/8" TO 2 3/8".

206,86 € excl. tax
248,23 € incl. tax

Made in France

SKU: JLBM100 | **Categories:** [Spare parts for BOEHM punch sets](#), [Striking tools and accessories for hollow punches](#) |

DESCRIPTION DU PRODUIT

This chuck can be used to lock punches up to 100 mm in diameter, enabling washers or gaskets to be cut concentrically in a single operation.

This chuck can be used in 2 different ways:

- mounted on a press, with the chuck attached to the moving part of the press. This chuck can be screwed onto the JLBM53PRESSE adapter for EMG manual presses. Caution: check the power required to use this chuck.
- flat by cutting with a mallet on the cutting edge of the hollow punch.

The hammer cutting method is not possible with this chuck, its weight being too heavy.
