CHUCK FOR HOLLOW PUNCHES DIAM2 À 60 MM ET DIAM1/8" À 2" 3/8 AND JLBM53PA

50,48 € excl. tax
60,58 € incl. tax

Made in France

SKU: JLBM60PA | **Categories:** [Spare parts for BOEHM punch sets](#), [Striking tools and accessories for hollow punches](#) |

DESCRIPTION DU PRODUIT

This chuck can lock JLB model hollow punches up to 60 mm in diameter or 2 3/8", for perfectly concentric cutting of pellets, washers or gaskets in a single operation, thanks to a ramp system that allows 2 hollow punches to be paired.

This chuck can be used screwed onto the JLBM53PA handle (a pressure screw secures the chuck to the handle), or flattened with the cutting edge of the punch facing upwards for mallet cutting.

Please note. the JLBM52 handle does not fit this chuck.
